At this site, we invite you to follow the information and download the #1 Creative Harping Lesson – How to Find the Mode of a piece of Music. Do not worry if you do not have music theory information as we will be stepping you through that information. There is a free lesson to start playing with. If you do not have a harp at this point, use the information for the instrument that you do have until a harp comes into your hands.

This program is for only harps (and voice). Please contact [Carolyn Deal](#) who hosts the Used Harp site. Reasonably affordable harps Harpsicle harps which I would highly recommend the Harpsicle to start with as you can add levers as you progress. Professional Therapy harps we recommend are:

Nightingale – Jessie harps by LewisCreek Harps

Christina harp by Triplett Harps

Rafael Harp by Harps of Lorien

The Evensong harp by Stoney End Harps
